

Feeding & Storing Guidelines

We ensure that all of our product is made with the freshest ingredients and frozen immediately to maintain nutritional values and protect minerals and enzymes from diminishing in effectiveness. Remove from freezer and thaw on counter. Stir well prior to mixing into your dog's regular meal. We suggest splitting servings between meals. Once thawed, Coastal Canine Blend can be kept in the refrigerator for up to 7 days or re-frozen for future use. Frozen product can be stored frozen for up to one year from production date (every product is date stamped).

The guidelines below are suggested feeding and can be revised based on your pup's current diet. Our motto is that some is always better than none and it should work for both you and your dog!

Dog Size	Dog Weight	Daily Feeding Amount
Small	Up to 30 lbs	3 tablespoons (1.5 oz)
Medium	30 – 60 lbs	6 tablespoons (3 oz)
Large	60 – 80 lbs	½ cup (4 oz)
Extra Large	80 lbs +	¾ cup (8 oz)

Intended for supplemental feeding only
